

quantum cascade laser wikipedia - quantum cascade lasers qcls are semiconductor lasers that emit in the mid to far infrared portion of the electromagnetic spectrum and were first demonstrated by jerome faist federico capasso deborah sivco carlo sirtori albert hutchinson and alfred cho at bell laboratories in 1994 unlike typical interband semiconductor lasers that emit electromagnetic radiation through the, **norcada mems chips and lasers for industrial and** - norcada is a mems and photonic product company specialized in the development and manufacturing of mems devices and mid ir dfb lasers for a wide range of industrial and scientific applications founded in 2002 norcada has a state of the art mems and photonics fabrication facility in edmonton alberta home to a major nanotechnology cluster in canada, **quantum cascade lasers for infrared spectroscopy theory** - qcls are available in fabry p rot fp distributed feedback dfb and external cavity ec configurations fp type qcls basically consist of the bare qcl chip and show multimode emission at all wavenumbers that meet the fabry p rot condition within the spectral range supported by the qcl s gain curve, **the foa reference for fiber optics fiber optic** - fiber optic transmitters and receivers transceivers fiber optic datalink fiber optic transmission systems all work similar to the diagram shown above they consist of a transmitter on one end of a fiber and a receiver on the other end, **glossary of semiconductor physics optoelectronic and** - britney spears explains those difficult and terms in semiconductor physics photonics and optoelectronics, **iqe s nano imprint lithography technology production** - semiconductor today the first choice for professionals who demand timely focused top quality coverage of the compound semiconductor industry
